

MAGDALENA

Flavour notes

APPLE / ROSEHIP / HONEY

As a new addition to the Red Brick Family, we wanted to share this classic Colombian with our subscribers as an espresso. Magdalena traces back to the starting point of our partnership with Caravela for Red Brick. After sourcing Red Brick components, specifically La Serranía, from this region for years, we teamed up with Caravela to help identify a group of producer partners with whom we could work directly, and some of the same farmers from Serrania are delivering into this lot. Sweet and floral, Magedelana welcomes apple, rosehip and sticky honey, making this the perfect cup for those crisp cold mornings or short winter afternoons.
