# CHACAYÁ

*Flavour notes*

**ORANGE / CARAMEL / CHOCOLATE**

Sweet and syrupy, your next go-to espresso, Chacayá, is here! This project is particularly special to us, as it represents over four years of collaboration with our exporter/miller partners, Los Volcanes Coffee, Chacayá, and the group leader, Andrés Tziná. Introduced to us as part of a Farms of Atitlán regional blend, our goal when we started work in the region was to identify and build a direct partnership with a single producer group for Red Brick in the Atitlán area. In collaboration with Los Volcanes, Chacayá's excellent quality alongside rapid growth has resulted in a second year of fulfilling a container exclusive to our Red Brick and subscription offering. Additionally, Los Volcanes continues its investment in this area and supply chain by distributing over 5,000 plants to local producer groups from their nursery and overseeing the planting of these projects.

*Country* **GUATEMALA**
