LOS ARCOS

Flavour notes

CHERRY / NOUGAT / CHOCOLATE

A subscription exclusive, Los Arcos is your espresso pick this week! Offering notes of cherry and nougat, this coffee transforms your cup into a deliciously balanced dessert. Produced in the Jalapa region of Guatemala by Osmin Garcia, he is a third generation coffee producer. Interested in overseeing more coffee processing, Garcia recently expanded his business to include a wet mill and in the future, hopes to experiment with honey and natural processes. For this lot however, the pickers selected only the ripest cherries and removed any greens before processing. Once depulped, the coffee was fermented for roughly 36 hours and thoroughly washed. Dried on a patio for 4-5 days in the sun, the coffee is then sent to Primavera, one of our longstanding export partners in Guatemala. Encasing the full bodied, chocolatey profile typically associated with coffee from the country, stay tuned for Los Arcos to also make its debut in The Filter Blend very soon!

Country **GUATEMALA**

Region **JALAPA**

Producer **OSMIN GARCIA**

Harvest **JAN-MAR** / *Varieties* **PACHE, RED CATUAÍ**

Process **WASHED** / *Altitude* **1900 MASL** / *Landed* **JUNE**
