

ERATOI

Flavour notes

BLUEBERRY / CHOCOLATE / NOUGAT

Working together with our longstanding exporters Karst as a pre financed project, Eratoi is your next subscriber exclusive! Produced by the Eratoi farmers group in the region of Eratoi in East Timor, this coffee embodies the creamy, medium-bodied profile typical of the area. Karst exclusively purchased parchment coffee from 30 producers near Eratoi village, meaning all coffee has been fermented, processed and dried on a farm level. While this method provides more earning potential for the individual farmers, consistency may be tricky as each lot is subject to slightly different climates and protocols. To help monitor this, lead farmer Simão Pedro de Deus regularly visits each of the farms, offering training and quality control checks. Deliciously showcasing this attention to detail, notes of blueberry, chocolate and sugary nougat stand out in this espresso!
