

LA RINCONADA

Flavour notes

BLACK CHERRY / CHOCOLATE / CARAMEL

An espresso subscriber exclusive, La Rinconada from Honduras is coming your way! Deliciously smooth and vibrant with notes of black cherry and caramel, this coffee is bound to enrich your cup. From the Lempira region, La Rinconada was produced by Eucebio Aguilar, who has been in the coffee farming industry for many, many years. Eucebio explained to our exporters at Beneficio San Vicente: 'since I was young, I worked as a coffee cherry picker on the farms of the municipality of Gualcinse, little by little the coffee caught my attention and I asked my father to lend me a small plot of land that he had to plant coffee.' Saving his money, he bought property (the very same that La Rinconada was produced on) and has since established himself as an independent coffee producer. Hoping to develop his farm further, Eucebio aims to improve the quality and infrastructure of his wet mill and build a concrete floor to dry the coffee on (a traditional drying method found in Honduras and other Central American countries).
