

RUGALI

Flavour notes

TANGERINE / HONEY / APPLE

This week's espresso is not only a subscriber exclusive, but gives you the chance to try one of the current components of The Filter Blend as a single origin! From the region of Nyamasheke, Rwanda, Rugali sparkles with honey-drizzled tangerine and apple, demonstrating the crisp, fruity flavour profile the area is known for. Produced by the Rugali Washing Station situated on the shores of Lake Kivu, the drying conditions and windflow are ideal for post-pulp drying. Operational since 2016, the station has already had an impact on the speciality market, producing exceptional coffee that has been used in competitions worldwide and putting the Nyamasheke District on the map!
