

SAN SEBASTIAN

Flavour notes

GREEN APPLE / NOUGAT / NECTARINE

With notes of dark chocolate and decadent dried cherry, San Sebastian is a refined espresso exclusively for subscribers! We've long had our eye on Inzá municipality of Cauca, Colombia. San Sebastian, created by our supplier Cofinet, is the latest in our delicious quest to find a permanent partner in the region. Producers from two cooperatives grow mainly Castillo and Caturra plants on farms of about one hectare. Inzá is known, however, for having a bit more of the Typica variety mixed into the fields, adding a berry-fruity halo to the cup. These small-scale farmers, largely part of the Paez indigenous group, manage washed processing and drying themselves. The coops and Cofinet provide agronomy advice, financing, and QC to create the perfect blend from the different farmers' lots. Like a luxurious nightcap, San Sebastian brings mature sweetness to your espresso.
