

EL MERIDIANO

Flavour notes

BLACKCURRANT / PEAR / FUDGE

A quintessential coffee that has become a mainstay in our Red Brick blend and subscription offerings, we've worked with export partners Caravela on El Meridiano for years! Produced in the region of Tolima, Colombia, this coffee consistently impresses us with its subtly sweet yet complex profile. The El Meridiano group is a collective representing the work of 58 smallholder members of the Association of Specialty Coffee Growers of Alto Saldana from the town of Herrera. The region's proximity to the equator, matched with a diverse range of microclimates, allows for almost continual harvest throughout the year, offering fresh flavours and character. Reliably tasty with rich notes of pear and fudge, we think El Meridiano will have you coming back for more!

Country **COLOMBIA**
