

EL CERRO

Flavour notes

PLUM / PRALINE / PEAR

Arriving from one of the most innovative producers in Peru, El Cerro has landed. Produced by Efrain Carhuallallo Salvador, his farm and wet mill located in the El Corazon village in the district of Chirinos are both run with extreme care and precision. Efrain began working on the farm in 1999, where he cultivated half a hectare of the Caturra variety. Fast forward to 2010, his passion for coffee growing excelled with the understanding that 'coffee is not only sold for physical performance but also for its attributes in flavours and aromas' and began entering many local and national competitions. After competing and coming second in the very first Cup of Excellence competition in the country, he began experimenting and improving the quality of his coffee and since then, has most likely become the most decorated producer in Peru!
