

LOS TABLONES

Flavour notes

BERGAMOT / ALMOND / DELICATE

Silky smooth and elegant, we're thrilled to bring you Los Tablones as this week's Our Pick subscription coffee. Produced by Baudilio Lemus, this lot is the first of three coffees you can enjoy from the Jalapa region of Guatemala this season. A second generation coffee farmer, Baudilio's father planted his first coffee about 62 years ago, gradually expanding his plantation after starting on less than one hectare of land. Now in about their 40th year of processing coffee, Baudilio's ongoing mission is to continually improve their practices to produce the best quality coffee possible. On their farm, they actively work to protect small springs and water sources for the health of the environment, while also nurturing native shade trees. Reflecting on his father's legacy, Baudilio says, "My father started in coffee over 60 years ago! Coffee is an inheritance from my father."
