

# EL PLAN

*Flavour notes*

**PLUM / SULTANA / HONEY**

A little sneak peak of what's to come, your subscription coffee this week is El Plan, from Nariño, Colombia. This will be our second harvest featuring coffees from the father-son duo of El Plan (father David) and El Trapiche (son Yhon David) which has formed part of Sweet Shop. Always a fun showcase, because although they produce their coffees on neighbouring farms, the end result is quite different. According to our on-the-ground partner at Nordic Approach, Enki Suarez, this was an especially good harvest for the Gomez family. Rain patterns were more predictable, so the family had a better time window to properly pick and dry their coffee over a longer period resulting in an enhanced cleanliness in the coffees. You'll notice how compared to the previous harvest's classic, sugary sweet morning cup, El Plan delivers big on juiciness with golden hues of honey florals and sweetness.

*Country* **COLOMBIA**
