

# UNION SAN PEDRO

## TASTING NOTES

RED APPLE / HAZELNUT / RAISIN

An exclusive for filter subscribers, Union San Pedro is here to warm up your morning and afternoon brews with the sweet, sticky flavours of a baked apple strudel.

Partners since 2021 and a favourite for you and us, we're excited to introduce USP's easy-drinking community lot which has been singing in our current version of The Filter Blend. Produced in the region of Sierra Sur, Oaxaca in Mexico, it was the collaborative effort of 33 producers that brought this coffee to life. With coffee from Mexico typically known for delicate spice and nutty, chocolate overtones balanced with a light body, Union San Pedro demonstrates this in the most delicious way.

Moreish with notes of crisp red apple, hazelnut and syrupy sultana, this filter makes for a wonderful sharing brew and we can't wait for you to enjoy it!
