

MELKA GUMIE

TASTING NOTES

PEACH / LYCHEE / SILKY

A treat only available to Our Pick subscribers this year, raise your cup for Melka Gumie of Gedeo, Ethiopia!

Producer Melka Gumie's stellar washed lot is brought to us via a direct farmer traceability program between exporter Tracon Trading and importer Covoya. This initiative was among the first of its kind after regulation change in 2018 opened possibilities for farmers with 2 hectares or more to market their coffee as individuals. Focusing on the Hafursa Waro kebele of Yirgacheffe district, Gedeo, the project highlights female farmers like Melka. This is our third harvest purchasing her coffee, and the profile is bang-on from previous years.

Juicy acidity like lychee and sweet peaches, and a silky smooth texture, this delicious espresso is everything we love from a washed Ethiopian coffee.
