

BOOKKISA

TASTING NOTES

MANGO / NECTARINE / JASMINE

Back and brighter than ever, Bookkisa is your subscription pick this week!

Produced in Guji, Ethiopia by the Dambi Uddo Drying Station, this coffee continues to shine with complex, fruit driven flavours. Becoming a favourite in our seasonal offering, Bookkisa is supplied by Sookoo Coffee. A family owned business, they produce and export traceable coffee, grown in the high altitudes of the Guji region. We've been working with Sookoo's founder, Ture Waji, since our earliest days of sourcing in Ethiopia.

With its signature soft strawberry notes and florals, it captures the showstopping fruity profile typically associated with Ethiopian coffee. An absolute stand out this summer, no wonder it keeps everyone coming back for more!
