

# MAZATECA VOCHO ROJO

## TASTING NOTES

ORANGE / ALMOND / FLORAL

A very warm welcome back to Mazateca Vocho Rojo! A pre-financing project, we're proud to say this is the 3rd season we've continued the initiative with sourcing partners, Red Beetle Coffee Lab.

Produced in the Oaxaca region in Mexico, the name pays homage to our partners as Vocho Rojo translates to red beetle in Spanish. Composed by 21 smallholders, this blend offers a light, floral cup: capturing the profile Mexican coffee is typically known for wonderfully.

Complimenting one another, notes of almond and fragrant orange make an invitingly irresistible cup. Or for those still enjoying their filter chilled or over ice, its citrus twist adds a delicately sweet quality to your brew. So get your coffee cups at the ready, we can't wait for you to try Mazateca once again!
