

# GITWE

## TASTING NOTES

APRICOT / TOFFEE / RASPBERRY

Making up part of The Filter Blend, you get to enjoy Gitwe as a subscriber exclusive this week! Located high on the hills of the Nyamasheke district, the Gitwe Washing Station is owned by The Rwanda Trading Company (RTC). A powerhouse in Rwandan coffee, RTC is focused on making farming more worthwhile for farmers. Since 2023, an estimated 60,000 farmers participated in their training, and the scale, alongside the focus on optimising yields for farmers to produce more coffee from their existing plants and land, really sets this program apart.

As a washing station, this focus on quality is reflected in the excellence Gitwe and its producer partners deliver. For this year's lot, 187 Farmers contributed, selling lots ranging from 18 to 800kg of cherry. The largest contributor contributed about 5% of the cherry over 3 deliveries, and all the cherry for this lot was purchased on May 22, 23, and 24, 2024.

Offering textural toffee notes highlighted by apricot and strawberry accents, Gitwe will make your day.

Coffee: Gitwe  
Country: Rwanda  
Region: Nyamasheke District  
Producers: Gitwe Washing Station  
Roast Level: Light  
Variety: Red Bourbon  
Process: Washed
