TASTING NOTES

FOREST FRUITS / RAISIN / HONEY

Returning to see us through the end of the year run, Cocatu offers a warming cup filled with bright berry and raisin notes, highlighted by its smooth honey texture. Striking the perfect balance between fruity and comfort, it delivers just the right amount of warm-wakeup and bright pick-me-up vibes.

Grown by the Cocatu Producer Group, we're excited to see this cooperative continue to expand year on year, adding to over 30,000 seedlings planted at the start of this year, increasing both quality and quantity. Founded in 2007 by 20 farmers, the group now comprises more than 260 smallholder farmers, and their partnership with the nearby Kinini Washing Station remains strong, providing quality training and financial advice. Bonuses paid out by Kinini have helped the Cocatu group to further grow their yield this year, and ensure resilience and prosperity despite the challenges posed by a late wet season.

Quickly becoming a favourite in our annual offering, Cocatu makes for an elegant brew you'll enjoy the whole day through.
